WELCOME TO SHIELD NETWORK

SHIELD NETWORK

A DEFLATIONARY CURRENCY ON BINANCE SMART CHAIN WHICH HAS A TAX OF **2%**, INCREASING IN RARITY AND REWARDS HOLDERS.

WHAT IS SHIELD NETWORK?

SHIELD NETWORK

SHIELD NETWORK IS A TOKEN ON THE BSC PLATFORM ASPIRING TO MAKE THE CRYPTO MARKET SAFER FOR EVERYONE TO INVEST IN. THE TOKEN IS DEFLATIONARY WITH A 2% TAX ON EVERY TRANSACTION. 1% IS BURNED, THE OTHER 1% IS REDISTRIBUTED AMONGST HOLDERS. THE TOKEN WILL FOREVER INCREASE IN RARITY.

OUR GOAL IS BEYOND MAKING JUST A REGULAR BSC TOKEN. WE ARE CREATING A TOKEN PRE-AUDIT PLATFORM WHERE EVERY TOKEN IS THOROUGHLY AUDITED TO ENSURE SAFETY FOR CRYPTO INVESTORS AND AVOID SCAMS.

THE PEOPLE BEHIND SHIELD NETWORK AND OUR GOAL.

We are a dedicated developer team consisting of 6 people from Norway. Our goal is to make the crypto investment market a safer place for new investors.

With the increasing interest in crypto worldwide, a lot of new investors start investing with little or no knowledge of the crypto market. The number of so-called rug-pulls and scams have reached a new all-time high, with scam videos even running on youtube unchecked for months. The risk for new investors of astonishingly high, and may lead to investors losing a lot if not all of their investment. This can scare them away from the crypto world forever, and will hurt the crypto community in the long run.

We see this as a growing problem which will not go away by itself. Something must be done to safeguard investors, new and old. That is why we are making a pre-audited launch platform where investors can feel safe knowing that all tokens audited by our growing team of agents, cannot be rug pulled.

As we are developing our pre-audited launch platform, we will focus on creating a community. Helping and giving new investors advice on how to trade and invest in a safe manner, minimize losses and maximize gains. This is something which is much needed in the crypto space, and we hope our efforts will have a positive impact on the crypto community.

WHY SHOULD YOU BUY AND HOLD THE SHIELD NETWORK TOKEN?

- WE AS A COMMUNITY ARE A CREATIVE AND DEDICATED GROUP WHO WANTS TO GROW AND MAKE ACHIEVEMENTS ALONG THE WAY. SHIELD NETWORK HAVE LOCKED LIQUIDITY TO CREATE A TRUSTED ECOSYSTEM. OUR COMMUNITY WILL KEEP ON GROWING EVERY DAY. EACH TRANSACTION MADE WILL REWARD SHIELD NETWORK HOLDERS

- IN THE LATER STAGES OF OUR PROJECT, WE WILL HOLD A CHARITY EVENT WHERE THE COMMUNITY WILL CHOOSE WHAT WE WILL CONTRIBUTE TO.

- IF THERE ARE ANY QUESTIONS, WE HAVE A TELEGRAM CHAT WHERE YOU WILL BE MET BY FRIENDLY PEOPLE WHO WILL HAPPILY HELP YOU OUT.

SHIELD
NETWORK

TRANSACTIONS

- As stated earlier, Shield Network BSC token has a 2% reflect amount each transaction.
- The total minted tokens of Shield Network are 1,000,000,000,000 (1 trillion), with 500,000,000,000 (500 billion) burned on mintng.

DISTRIBUTEAMOUNT=TRANSACTIONAMOUNT X 0.02

DISTRIBUTE PER ADDR=DISTRIBUTEAMOUNT

$$X \frac{\text{ddrOwnedShieldNetwork}}{\Sigma\text{TotalShieldNetwork}}$$

BURNED AMOUNT=DISTRIBUTEAMOUNT

$$X \frac{\text{BurnedAddrOwnedShieldNetwork}}{\Sigma\text{TotalShieldNetwork}}$$

- Here is an example of what this looks like in practice, for example we will give the Shield Network owner address “0x0**SHIELD**” a value of 1,000,000,000 **Shield Network**. A new buyer the address of 0x0 **SHIELDNEWBUYER** with a value of 0 **Shield Network**.The address
- 0x0**SHIELDNEWBUYER** will buy 1,000,000,000 **Shield Network** and this will be shown what happens in the following example.

DISTRI BUTE AMOUNT=1,000,000,000 X 0.02=20,000,000 SHIELDNETWORK

0X0SHIELDNETWORKDISTRIBUTION = 20,000,000

$$X \frac{\text{0x0BurnedShieldNetwork=563,897,469,786}}{1{,}000{,}000{,}000{,}000}$$

0X0SHIELDISTRIBUTION=20,000 SHIELD
0X0SHIELD=1,000,000,000+20,000
=1,000,020,000 SHIELD

Burned Amount=20,000,000

$$X \frac{\text{0x0BurnedShieldNetwork=563,897,469,786}}{1{,}000{,}000{,}000{,}000}$$

=11,277,949 SHIELD

ΣTotal Burned Shield Network
=11,277,949+563,897,469,786 SHIELD

ΣTotal Burned ShieldN etwork
=563,908,747,732 SHIELD

- 0x0**SHIELDBUYER** distributed 8,722,051 **Shield Network** to active wallets and burned 11,277,949 Shield Network on the swap from BNB to **Shield Network**, with a total cost of 1,020,000,000 **Shield Network** plus PancakeSwap liquidity pool fees and BNB fee’s.We can calculate the payout and burn from the following formulas.
- The holder of the address 0x0**SHIELD** total went from 1,000,000,000 **Shield Network** to 1,000,020,000 Shield Network just by holding the token in their wallet, without worrying about the issues and cost of staking in a liquidity pool.

SHIELD NETWORK FUTURE

- WE WANT TO GIVE SOMETHING BACK TO THE COMMUNITY, THEREFORE WE WILL START WITH CHARITY DONATIONS IN Q4. THE CHARITIES WILL BE CHOSEN BY THE COMMUNITY. A PROPER FORUM AND VOTING SYSTEM WILL BE PUT IN PLACE FOR THIS TASK.

- PEOPLES INTEREST IN NFTS EXPLODED IN 2021, BUT MINTING THEM CAN BE A COSTLY AFFAIR. HIGH FEES ON THE ETHEREUM CHAIN BLOCKCHAIN ARE ONE OF THE REASONS WHY WE CHOOSE THE BINANCE SMART CHAIN FOR OUR TOKEN. WE ARE AIMING TO LAUNCH A NFT MARKETPLACE WHERE CREATORS CAN POST THEIR WORK WITHOUT HAVING TO PAY EXTREME AMOUNTS OF FEES TO CREATE THEM. BY TEACHING OUR COMMUNITY ABOUT HOW TO MINT AND SELL NFTS, WE GIVE POTENTIAL NEW NFT ARTISTS A PLACE TO START AND EARN INCOME FROM SELLING THEIR NFT ART.

- SHIELD NETWORK IS AIMING TO BE THE NEXT BIG BSC PLATFORM. WE ARE IN ITS EARLY STAGES AND PLAN TO FOCUS ON MARKETING AND BUILDING A COMMUNITY. THEN WE WILL FOCUS ON SEVERAL LISTINGS, DEVELOP OUR PRE-AUDITED LAUNCH PAD AND EXPANDING OUR TEAM.
